Animated Artistry

Friday 17 May | 6.30 p.m. | The Gallery @ InKo Centre

All art is animated, infused as it is with the creative energy of the artist reaching out to connect, often recalibrating perspectives or offering fantastical parallel universes. What occurs when the technological arm claps the already incredible human hand?

Animated Artistry showcases the unique synergy between drawing and technical layering, art and animation, that forms the basis for ideas bursting forth into life, to audaciously transition from the drawing board to the screen. The exhibition aims to trace the process behind the making of critically acclaimed animated films by Enigmatic Animation Company such as Hanuman vs Mahishanana as well as short films such as Book Golfr, Fairywoods, Wizard of Arabia and Dark Spell.
